

# Turnkey Solutions

## Advanced "application specific" automated labeling systems designed for efficiency and productivity

**P**aragon offers a range of standard high-performance turnkey labeling solutions designed for a wide variety of specific industry applications, including wrap-around, top-and-bottom, and two-sided labelers. And with our OEM partners and our worldwide network of authorized distributors, we have the experience, capability, and commitment needed to design and deliver affordable custom printing and labeling systems to meet our customers' unique requirements.

### Tabletop Wrap Around Labeler

Portable and durable, this economic and efficient labeler is designed to wrap labels onto any cylindrical product. It is more efficient than any "semi-automatic" system and more economical than a fully integrated solution. With a wide application range, and the ability to handle up to 100 parts per minute, this is the smart choice for small production runs. It is fast, easy to maintain and flexible enough to handle production schedule and product changes quickly and simply.

Power Source	AC110V/220V 50HZ/60HZ 1 Phase
Power Consumption	460 VA
Driver	2 Phase Stepper Motor
Dispensing Speed	630" (16m)/minute
Conveyor Width	6.3" (160mm)
Product Diameter	5.5" (140mm) Max
Label Height	4.75" (120mm) Max
Label Length	5/8" (16mm) ~ 11-3/4" (300mm)
Label Reel Outer	14" (357mm)
Space Between Label	1/10" (3mm)
Air Pressure	60PSI

### Wrap Around Labeler

This powerful system handles round products of all types and sizes, ensuring high efficiency and smooth production runs. It can be integrated into a production line or operated as a stand-alone machine, and features a user-friendly operating system and upgradeable controls.

Power Source	AC110V/220V 50HZ/60HZ 1 Phase
Power Consumption	760 VA
Controls	Netcon Touchscreen
Conveyor Width	4" (100mm)
Conveyor Speed	Up to 62' (18.5m)/minute
Dispensing Speed	Up to 1600" (40m)/minute
Label Size	Up to 6" (150mm) x 12" (300mm)
Label Roll Size	14" (360mm) OD on 3" (76mm) ID core
Options	Hot Foil Printer

**PARAGON™**  
LABELING SYSTEMS

Modularity. Integration. Performance.

## Horizontal Wrap Around Labeler

This versatile, high-speed system features a special roller conveyor and in-feeder able to apply labels on any small diameter products where vertical labeling cannot be used. It can be integrated into a production line or operated as a stand-alone machine, and features a user-friendly operating system and upgradeable controls.

Power Source	AC110V/220V 50HZ/60HZ 1 Phase
Power Consumption	825 VA
Controls	Netcon Touchscreen
Conveyor Width	7" (178mm)
Conveyor Speed	Up to 133' (40m)/minute
Dispensing Speed	Up to 1600" (40m)/minute
Label Size	Up to 6" wide (150mm) x 12" long (300mm)
Label Roll Size	14" (360mm) OD on 3" (76mm) ID core
Options	Hot Foil Printer

## Two Sided Labeler

This flexible system can handle one-sided or two-sided labeling and is suitable for a variety of product shapes and sizes. Optional product spacers and alignment devices may be added to increase accuracy and productivity. It can be integrated into a production line or operated as a stand-alone machine, and features a user-friendly operating system and upgradeable controls.

Power Source	AC110V/220V 50HZ/60HZ 1 Phase
Power Consumption	900 VA
Controls	Netcon Touchscreen
Conveyor Width	4.5" (110mm)
Conveyor Speed	Up to 100' (30m)/minute
Dispensing Speed	Up to 1200" (30m)/minute
Label Size	Up to 6" wide (150mm) x 12" long (300mm)
Label Roll Size	14" (360mm) OD on 3" (76mm) ID core
Options	Hot Foil Printer
