

Material Handling

- Conveyors
- Carton Erectors
- Case Erectors
- Case Packers
- Palletizers
- Horizontal Flow Wrappers

Standard material handling solutions to customized systems designed for your specific requirements, our design team has the answer for all your material handling requirements.

Case Tapers

Internet Packaging provides high-quality cost-effective case processing and case sealing application packaging machinery. Marketed under the CHAMPION brand name, we carry a substantial inventory of semi and fully automatic case sealing machines in powder coated and stainless steel finishes. Our proven performance CHAMPION heavy duty CHD-500 series tape heads are lifetime lubricated and virtually maintenance free.

Service and Consumables

We offer both depot and on-the-site service by our factory-trained technicians. Dartronics can also furnish all your consumable requirements, from labels, ribbons to ink jet fluids. Make Dartronics your one stop shop for all your consumable needs.

FastTrak® Software

Integrated, automated packaging line software for "The Last 100 Feet"

- Total warehouse control systems integration (WCS)
- Real time control of material handling equipment
- Communication between material handling sub-systems
- One-port connectivity to WMS, ERP, or other host system
- Many user sites

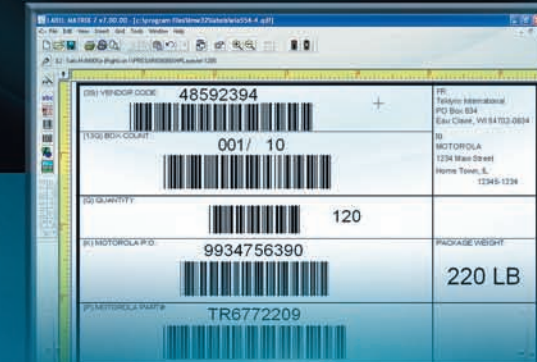

Stretch Wrappers

Reduce your stretch wrapping costs and get better performance out of your stretch film with Orion's Insta-Thread film delivery system. The Insta-Thread powered prestretch film carriage, available on most Orion stretch wrapping machines, elongates stretch film up to 300% to help you get the maximum amount of yield and performance out of every inch of film. If you're currently wrapping loads by hand, or using a low-performance stretch wrapping machine, switching to Orion equipment can save you up to 70% of your current stretch film costs. With 20 years of experience building the finest stretch packaging machines on the market, Orion has a model for your needs.

The Single Source for Your End-of-Line Packaging, Marking, and Coding Needs.

HSA USA Ink Jet Printers

High resolution ink jet printers, featuring XAAR and HP technologies, the best and most versatile software on the market, along with a broad range of controller options make HSA USA systems the only choice for high resolution print requirements.

Labeling Systems

Paragon Labeling Systems manufactures automated labeling systems for packaging, manufacturing and supply chain applications. The modular design of the systems enables easy assembly, maintenance and future upgradeability. As a leader in print-and-apply labeling solutions, Paragon is at the forefront of integrating next generation monitoring/control and RFID technology into its automated labeling systems.

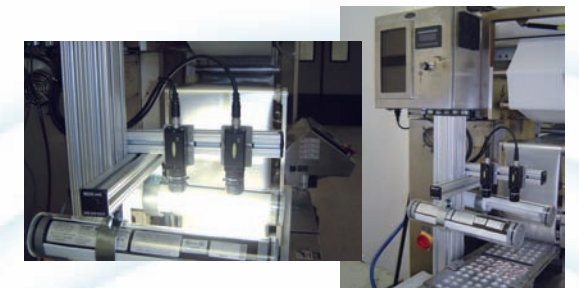

Hitachi Small Character CIJ Printers

Small and light, all electric, no factory air, a unique circulation system that reduces fluid consumption by 1/3 or more, plus the Hitachi reputation for quality, gives you a state of the art system for your small character printing needs.

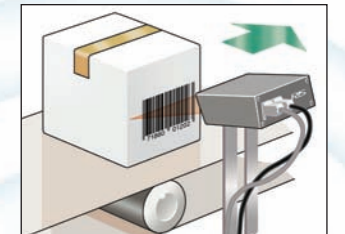

Dartronics Vision Systems

This system is used to detect a missing tablet condition or one half of a missing tablet condition. Two individual camera systems are utilized to provide maximum camera resolution. From project analysis, design & build, installation, adaption, validation to start up, Dartronics ensures your vision inspection project is delivered on time allowing you to take full control of your packaging line inspection.

Barcode Scanners & Verifiers

Broad range of barcode scanners and verifiers to enable you to read and verify your barcodes. If your need is for a simple read/no read solution, or 100% inspection/vision system, Dartronics has the solution.

Custom Applications

Tired of “off the shelf” answers to your packaging automation needs? Dartronics in-house design and manufacturing capabilities provide customers with a competitive edge, from customization of standard machines to manufacturing special purpose machines. Dartronics offers pre-engineered solutions to fit your specific requirements.
